DRAFT Master Action Plan

Notes: The Council's key priorities.
A. The Council's key priorities are colour coded to actions as follows. Note each item is allocated to what is considered the primary applicable objective (may need to consider a better way of doing this)
1. To respond effectively and speedily to the climate emergency.
2. To develop a resilient, sustainable town which will provide a home for residents now and in the future.
3. To manage the Council's assets efficiently and effectively to meet for the needs of the community now and in the future.
4. To work with community partners to support those who are vulnerable and in need and to create opportunities to increase social inclusivity.

B. The Council is a body in perpetuity with a life beyond the current administration, beyond which it extends; it is intended that it is updated each year and the period of the plan extended.
