

THANK YOU!

Abingdon Town Council

Abingdon Town Council funding has been incredibly important for Young Carers in the area. Funding has been used to provide the 1-2-1 emotional support to the young carers in this area. We have provided 65 1-2-1 emotional support sessions to young carers in the Vale of White Horse across the past year with many of these young carers being based in Abingdon. Giving them a high level of support for the challenges they face as Young Carers.

Our youth worker has additionally been working with schools to share information about young carers and improve their advocacy. This funding has allowed them to attend school assemblies and make sure that young carers are getting the support they need. Some schools we have attended include Sunningwell Primary school, Dry Sandford Primary school and Abingdon & Witney College.

During the support of the grant, we have had 10 new young carers join the charity from Abingdon (not including those who have joined from surrounding areas or attend schools in the area.) with 2 additional young carers registering between September and February.
