

Walking & Cycling Leaflets

Walking Leaflets and Branded Walks: Some work has already been done to identify some walks that can be "branded" to attract visitors from some distance away and where possible they have been included in the development of the town map project. Proof readers willing to actually "test drive" the walks once they are written up would be helpful. Strangely, these should be people without much local knowledge.

But we could also use the help of individuals who know their botany, history, geology, geography and all subjects in between so that we can include interesting "gobbets" of information as asides to the basic walk description.

We will also be developing some cycling literature but whether this needs to be for Abingdon only or developed on a wider scale (perhaps jointly with Faringdon and Wantage) is still to be looked at. Cyclists to write and test routes of differing lengths and styles will be needed.

Please let the Partnership Manager have your details so that you can join our project groups.

Latest update: the first and longest of the proposed walks has now been drafted and illustrations drawn. Further revisions will be undertaken over the Christmas period so that a draft leaflet can be viewed in January.
