

Abingdon Public Conveniences

March 2022

Visitors first point of contact when arriving in the town can be the public facilities, and the cleanliness and upkeep directly impact impressions of the Town.

Hales Meadow apparently has been out of order for some time Abbey Meadows changing spaces is out of order and certainly has been before the 9th of February; in general it is a good facility but suffers from neglect.

Charter is just an embarrassment especially the Gents which is a disgrace.

Comment on Google maps ref the Charter 2 years ago

After living in Abingdon all of my life i can honestly say these are the worst toilets i have ever had to use.on a daily basis always one cubicle not working !! Not cleaned enough and are in SERIOUS need of revamp ..A disgrace to the town especially for visitors!!! Needs Sorting

The Town councils facilities are excellent for those who know where they are and when they are available.

Very poor signage and notices offer little or no help.

It is not acceptable to direct people to an out of order facility.

Our web page should include better and up to date information.

The photos on the following pages speak louder than words.

Hales Meadow

Comment on Google maps one year ago

3 weeks in a row and toilet is out of work, with hundreds of people in the park.

Good job Council
