This includes all evening events which were initially planned as chargeable events.
- (ii) The event be extended to non-residents of Abingdon at such time if there are surplus wristbands still available.

DRAFT MINUTES – Special meeting

A discussion took place around this with various observations being raised,

- It being difficult to ensure residents of Abingdon only attended but it was thought that this would mostly be the case.
- There would be two entrances manned by ‘clickers’ both those going in and going out, the numbers expected to be 4,500.
- It was requested for clarification that the £70,000 was on top of the original £52,000. This was confirmed by the Community Services & Events Officer, who also advised that this is expected to change, the amount will reduce with some income being received from stalls and bars.
- Those who have already paid for tickets to be refunded in full which will include the booking fee, however the Town Council will need to refund the booking fee as the booking site will not do this.
- The Town Council website was now updated and ads on Jack FM to start.
- Detailed answers to questions from Cllr Birks can be found [here](#).

It was **proposed** by Cllr Birks, **seconded** by Cllr de la Harpe and **AGREED that**, (i) of the recommendation be reworded to read, ‘the event is offered as a free event to all ABINGDON residents’.

Before a vote was taken on the proposal Cllr Charlie Birks asked it to be minuted that he was uncomfortable with the decision on the proposal but as there was no other credible solution that he would vote for it.

The Mayor asked that councillors voted on the recommendation and it was **AGREED** unanimously **that**, the Platinum Jubilee Festival event be offered as a free event, **that**, the event be extended to non-residents of Abingdon at such time if there are surplus wristbands still available, **that**, the shortfall of income due to (i) be recognised by way of a supplementary budget estimate, up to a maximum amount of £70,000, and **that**, the supplementary estimate in (iii) be funded by use of the council’s general reserve.

The meeting closed at 7.26 pm
