

Thomas Reade Primary School

Abingdon Town Council grant report

The town council donated £500 towards our £40,000 project to overhaul our Early Years outdoor space – the rest was kindly donated by Christs Hospital, our fabulous School Association and fundraised by selling the old patio slabs and sheds as well as online fundraising.

A school working party gave up their Saturday to lift all the slabs and clear the bushes and old turf and artificial base. We then had all the paving slabs replaced with a wet pour and a trim trail with artificial grass installed.

The outdoor trim trail and resurfacing has been a fantastic addition to the space and has really transformed the outdoor learning provision.
